Next Step College Sports and the Barton Football Academy are teaming up for their 5th Annual Marketing Workout. For the first time, Barton Football will move into the state of Washington on May 1, 2010 at Mercer Island High School. In addition we will continue partnering up with Willamette University located in Salem, Oregon on May 15, 2010.

Taylor and Greg Barton, along with [Mike Bush](#) and James Lawrence, will head the Marketing Workouts with assistance from coaches in the Barton Football Academy.

The Marketing Workout is designed to let each athlete receive lots of repetitions at each position. The workout is for all positions, both offensively and defensively. We have added punters and kickers at both locations this year. In the last 20 minutes of the Lineman Camp, long snappers can join the kickers and punters.

Representatives of Scout.com, Rivals, and Max Preps will be in attendance. College coaches have been invited to watch the workouts at both Mercer Island High School and Willamette University.

The Marketing Workout is for designed to help get players information out to the colleges and to be seen and evaluated by college coaches. Seniors, Juniors, Sophomores and Freshman (to be) are invited to sign up.

Next Step College Sports (www.nextstepcollegesports.com) will send (all participating players) your name, position, grade, school, grade point average, height, weight, home and cell phone numbers, home mailing address, home email, coach's name and his contact numbers to D-1, D-1AA, D-2, D-3, NAIA and Junior Colleges throughout the USA and Canada.

The cost for this event is \$100 per registrant, regardless of position. A special opportunity for players is the cost of going to both Washington and Oregon is just \$150 (a savings of \$50). Talk to any parent you know that at one time was trying to get their son or daughters information to college coaches and you will hear how difficult this was and how frustrated they were with the process. Each player in the Mercer Island training will have their information sent to colleges by May 3. The same thing will happen for the players at the Willamette workout. Their information will be in college coaches' hands by May 17. Any player that attends both workouts will have their information sent out TWICE and that is huge.

All players will receive a workout t-shirt with the players registration number on the front and back (for college coaches in attendance to easily identify each player). Each college coach, who is there watching the event, will be given a packet containing the participants' name, registration number, position, grade, school, grade point average, height, weight, home and cell phone numbers, home mailing address, home email, coach's name and his contact numbers. Participants will supply that information to us when they register online for the event. It is important that you are accurate with all the information you give us. This will be the information that we put into the coaches packets and that we send out to the D-1, D-1AA coaches, D-2, D-3, NAIA, and Junior Colleges (throughout the USA and Canada).

Players will be tested for the 40 yard dash, the shuttle, and a standing long jump. Players will tell us if they want their results to be added to the information that goes out to colleges.

The workout agenda and format are exactly the same at both Mercer Island and Willamette University.
